

Mid Continent Controls is bringing you the next generation of in-flight entertainment by introducing our new Dual Blu-ray Disc Player. Capable of up to 1080p High Definition Video, the MC2 Dual Blu-ray Player can assure that your in-flight cabin entertainment system stays on the forefront of technology. Both Blu-ray discs and DVDs can be played using this sleek, lightweight design. Whether your customers are watching DVDs or Blu-ray discs, operation will be quick and simple. Our Dual Blu-ray Player has a "tray-less" design for disc loading, eliminating the fragile loading trays which may be easily broken or snagged in the aircraft cabin. The standard finish is a satin black anodized face plate with blue illuminated operating buttons which will readily compliment any cabin decor. In the world of in-flight entertainment systems, Mid Continent Controls' Dual Blu-Ray Player is on the leading edge.
