

USB-C CHARGING

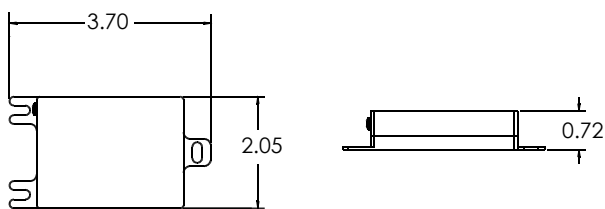

Mid Continent Controls' USB-C charger supports charging with a maximum capability of up to 45 watts. The charger can deliver 5, 9 and 15 volts up to 3 amps. Device driven monitoring and adjustment of the charger provides the ability for Rapid/Quick charging of the device. Our USB-C charger also supports USB Type A devices at a maximum of 5 volts at 3 amps. This USB-C charging solution provides for complete charging capacity to support a wide range of devices from cell phones, tablets and laptops.

While using the USB-C charger, a compatible device can simultaneously transmit data at USB 2.0 speeds. Mid Continent Controls has USB-C ports available in a variety of designs and finishes and we can also create custom ports for specific requirements.

The Mid Continent Controls charger has received FAA TSO-C71 approval.

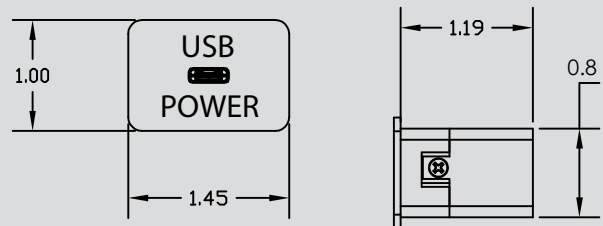

SPECIFICATIONS

USB-C Power Supply - 45w

Part Number.....106440-1
 NTE Weight.....3oz
 DC Power Input.....28VDC, 2A (Max)
 DC Power Output.....5V, 9V, 15V @ 3A
 Certification.....TSO-C71

USB-C Port

Part Number.....106442-1
 NTE Weight.....1oz
